No 0000071

Meeting: Skinner Landfill at Weston Contractor Office

Date: June 17, 1987

At the meeting were Ben Wong, Mike Bost,
Laura Wyer and Dave Pyles. The following
items were discussed at the meeting.

1.) RI Report revisions

- Laura is responding to every comment in letter form. Some of the comments will be incorporated, others will only be discussed and explained.
- Laura will have a response in 2-3 weeks.

2.) Phase II RI fieldwork

- add'l background samples needed for all media
- rethink the 2 cluster wells between FW17 & FW20
- Possibility of not doing inorganic analysis on gels?

Inorganic's preparation is time-consuming

- ✓ - According to Ohio Solid & Haz. Waste Laws - Ohio Revised Code 3734.024, DEPA director must give authorization before we can dig trenches at locations which may have had haz. waste.
- Because of hot weather conditions & Level B work, we may have to work split shifts (ie 6:00A → 11:00A & 4:00P → 8:00P)
- SAS needed for recoverability parameters
- Depth determination by borings in the excavated trench
- Trenching plans to be set after 6/26 site visit
- Preliminary plans are to dig 2 trenches on the middle of the BCCS and then trench BCCS perimeter to determine extent
- August start date tentatively
- Obtaining operators may be key.

Mike,

Most of Mike Starkey's comments have some merit. Some of the comments definitely require further discussion between you, me and possibly Mike Starkey before they can be incorporated.

I am sending you a copy of Mike Starkey's comments. In the margin are general indications of what I think about the comments. I am sending this copy so Laura can start working on what I see are the less significant issues to incorporate comments.

I am in the process of writing comments to OFPA's more significant comments (denoted by "see notes" in the margin of the OFPA letter). Hopefully, I can get these out to you by June 10. After you have had a chance to look at all the comments, let's hold a meeting to discuss the comments and the resolutions. I suggest we have the meeting in conjunction with the RP14/S14 monthly meeting (I have dates available 6/15-17 and 6/23&24). Please call me when you have time available.

Fene Wong
